ROADS Team - Referral Pathway

The Roads Out of Recovery Alcohol and Drug Support (ROADS) Team will support you to consider, prepare for and access long term Residential Rehabilitation in Scotland, and will also provide you with continued support when you return to the community. The team will support you to ensure long term residential rehabilitation is the right choice for you, and to consider areas such as housing and benefits. The ROADS Team can also offer support to families, carers and children of individuals who are going to long term residential rehabilitation.
